

TREAMS *focus*

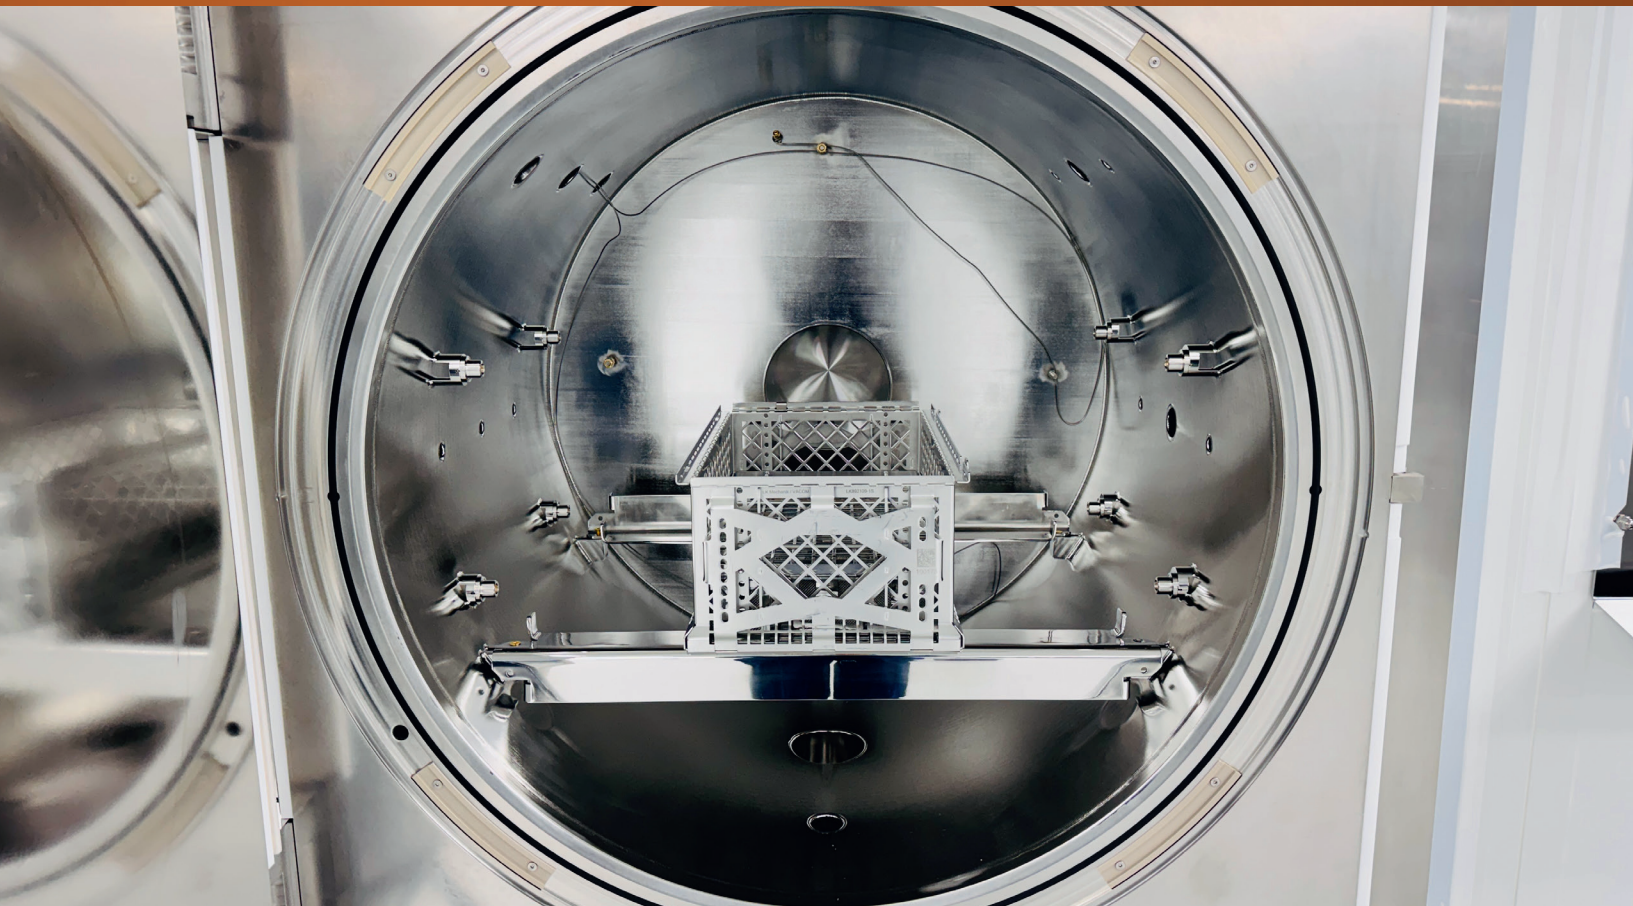

Vacuum system series for GSA-oriented process chains

ARGAT *focus*

GSA-compliant
vacuum system for
residual gas analysis

VOBOS *focus*

Vacuum bake out oven
as the perfect complement
to ARGAT *focus*

Designed to meet the needs of the semiconductor industry: **TREAMS focus.**

Our cost-effective vacuum systems, developed specifically for the GSA-oriented supply chain, enable you to perform critical process steps such as outgassing and residual gas analysis in-house.

Integrate key steps, such as vacuum bake-out and cleanliness assessment based on component outgassing behavior, into your process chain.

Your benefits:

- ▶ **Greater flexibility:**
no reliance on service providers
- ▶ **Process safety:**
reduced risk of contamination and damage during transport
- ▶ **Certainty:**
Control over your own measurement data
- ▶ **Lower costs:**
medium- and long-term savings

ARGAT focus

Residual gas analysis tool for detecting contaminants

VOBOS focus

Vacuum bake out oven for dry cleaning
